SYNOPSIS

Creation of a Cumulative Capital Development Fund under P.L. 44 provides for effective longer-range capital improvements planning. The proposed tax rates, with the City's current assessed valuation, will generate a total of \$546,737.00 over the three year period that the fund will be in effect. Both the tax rate and the budget will be recommended by the Mayor to the Council on an annual basis. Proposed uses of the fund over the three year period includes construction of a salt storage facility, curbs and sidewalk repair, small scale drainage improvements, demolition of the Wayne Feeds building, repair of the Frank Southern Center roof and floor, and as matching funds for federal and state capital improvements grants.
